# 2009 HIGH SCHOOL BIOINFORMATICS PROGRAM

The Computer Science Department at New Mexico State University is hosting its annual High School Bioinformatics Summer Camp for local high school students. Participants will gain knowledge and experience in bioinformatics by conducting research and working in computer and wet labs on camps, and then preparing a research caliber poster for presentation

The program runs during NMSU Summer Session II, on the NMSU Campus. Through this learning experience, participants will discover new ways to apply computer science and what the NMSU Computer Science Department has to offer.

**Deadline to Apply: April 30, 2009**

## PROGRAM BENEFITS

- Free textbooks and materials
- Free lunch
- \$200 stipend
- Free extra-curricular activities
