

NEW MEXICO STATE UNIVERSITY

NA/CS Summer Camp 2004

NEW MEXICO STATE
UNIVERSITY

Department of Computer Science
Box 30001/CS
Las Cruces, NM 88003
dranjan@cs.nmsu.edu

PROGRAM DESCRIPTION:

The workshop provides a three week introduction to computer science at New Mexico State University. The students can expect to be exposed to basics of computer programming in C, robotics, discrete mathematics for computer scientists, and internet and the worldwide web. The students can also expect to get a good feel of the computer science program at NMSU and how one can go about acquiring a Bachelors degree in computer science at NMSU.

The instructors participating in the program will get a first-hand chance to work with professors at NMSU towards developing a coordinated program that will allow the college students interested in a computer science career to transition smoothly from the colleges to a 4-year BS program at NMSU.

FINANCIAL SUPPORT :

Each participating student will receive a stipend of \$400/week (\$1200 total). Each student will also receive free accommodation and meals for the program duration. An allowance will also be provided for travel to and from NMSU.

Each participating instructor will receive a stipend of \$500/week (\$1500 total). Each instructor will also receive free accommodation and meals for the program duration. An allowance will also be provided for travel to and from NMSU.
