### PROGRAM DESCRIPTION:

CS Summer Camps provide a five week introduction to Computer Science at New Mexico State University. The 2005 camps will be held during the Summer II session, July 5 – August 11. Students will learn computer programming in C, bioinformatics, robotics, discrete mathematics for computer scientists, and 3D virtual environments. Students can also expect to get a good feel for the Computer Science and Bioinformatics programs at NMSU and how and why one can go about acquiring a Bachelor's degree in Computer Science at NMSU.

CS instructors participating in the program will get a first-hand chance to work with professors at NMSU towards developing a coordinated program that will allow college students interested in a Computer Science career to transition smoothly from the colleges to a 4-year BS program at NMSU.

### FINANCIAL SUPPORT:

All participants in the program will receive free accommodation and meals for the program duration, along with an allowance for travel to and from Las Cruces. Selected students will receive a stipend of up to \$1500 and/or tuition for a 1-4 credit course. Selected instructors will receive a stipend of up to \$2500, and/or tuition for a 1-4 credit course. Financial support will be proportional to participants' prior CS background as well as to the number of qualified applicants, limited to available funds while supplies last. Apply early for top consideration!

### DEADLINES:

March 15, 2005 – Early Bird applications  
April 15, 2005 – Regular application deadline
